

DIRECTIONS FOR USE

MIGHTY MICROS®, is compatible with TBT's GREEN GOLD™, JUMP START™, LIQUID-K™, PENETRAIDE™, HARMONEY™, and most pesticides and other chemicals. Always use a jar compatibility test with correct rates of all products before mixing for the first time. When mixing other liquid fertilizers and/or pesticides with MIGHTY MICROS®, the blend sequence should be as follows: water, pesticide, Mighty Micros® and/or other fertilizer and adjuvant. Foliar application is recommended when fast correction is desired. For best results, foliar apply either early or late in the day for maximum leaf penetration. Applications should be made when there is little dew to prevent run-off.

APPLICATION RATES

TURF: Use the following rates with sufficient water for thorough coverage. Spray to the point of run-off.

	COVERAGE	MIGHTY MICROS®
All Turf Grasses, including, Bluegrass-Ryegrass, and Poa Trivialis Bahia, Bent, Bermuda, Centipede, Fescues, St. Augustine, Paspalum and Zoysia	1,000 sq. ft./acre	6-15 oz./2-5 gals./acre

In extreme cold weather MIGHTY MICROS® may be applied according to the following formula; 4 gallons of MIGHTY MICROS® plus 2 quarts of wetting agent and either, one gallon of JUMP START or 2.5 gallons of GREEN GOLD in 50-100 gallons of water acre. Application of this formula prior to the arrival of the cold front will dramatically ameliorate the impact of the extreme cold weather.

*NOTE: In foliar sprays use a non-ionic wetting agent for more even leaf coverage.

STORAGE: MIGHTY MICROS® is corrosive to aluminum, non-stainless steel and brass. Store and/or ship in polypropylene, fiberglass or stainless steel containers. Use only stainless steel or PVC fittings. Store in a cool place in original container in a locked storage area inaccessible to children, pets or wildlife.

WARNING: May cause damage to central nervous system through prolonged or repeat exposure.

Prevention: Do not breathe vapors, mists or sprays. Wash thoroughly after handling. Use only outdoors or in a well ventilated area.

Response: Get medical attention / advice if you feel unwell.

Storage: Keep containers tightly closed when not in use.

Disposal: Dispose of contents / containers in accordance with local / regional / national regulations (See Section 13 of SDS).

Do not reuse containers. Containers may be triple rinsed and offered for recycling.

CONDITIONS OF SALE

Seller warrants that products will be labeled as required under state and federal laws and that they conform to the label description. Any non-conformance must be reported in writing to Seller within thirty (30) days after purchase as a prerequisite to maintaining any claim against Seller. Buyer agrees to inspect all products purchased immediately upon delivery. THE SELLER'S LIABILITY UNDER THIS WARRANTY IS LIMITED IN AMOUNT TO THE PURCHASE PRICE OF THE PRODUCT. THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THERE ARE NO WARRANTIES WHICH EXTEND BEYOND THIS STATEMENT.

GENERAL INFORMATION

MIGHTY MICROS® is a completely available, non-burning complex of Iron, Manganese, Zinc, Boron, Copper and Sulphur. It contains no primary nutrients, yet it provides quick green-up of turf and plants and promotes growth. MIGHTY MICROS® is a modified Polyflavanoid Copolymer (a natural organic referred to in literature as a P.F.), and it may be fairly described as a "pre-digested" form of micronutrient. It is easily and quickly taken up by plant roots and leaf cells because the P.F. is similar to that found in almost all plant life. MIGHTY MICROS® is formulated for use on turf grasses, ornamentals, bedding and other plants to prevent or correct a deficiency. It is derived from nutrient sources that are totally available to growing plants. It is non-phytotoxic and quick acting with results usually apparent within hours.
