

DIRECTIONS FOR USE

Use **EVERGREEN™** to promote vigorous turf and controlled root and foliage growth. **EVERGREEN™** is formulated so that the turf manager can use higher than normal rates to recover from stress or slow growth periods. **EVERGREEN™** is compatible with TBT's **MIGHTY MICROS™**, **PENETRAIDE™**, and with most other fertilizers, (except for fertilizers containing magnesium or calcium) pesticides and other chemicals. Always use a jar compatibility test with correct rates of all products before mixing for the first time. When mixing other liquid fertilizers and/or pesticides with **EVERGREEN™**, the blend sequence should be as follows: water, pesticide, **EVERGREEN™** and/or other fertilizer. Foliar application is recommended when last correction is desired. For best results, foliar apply either early or late in the day for maximum leaf penetration. Applications should be made when there is little dew to prevent run-off.

APPLICATION RATES

TURF: Use the following rates with sufficient water for thorough coverage. Spray to the point of run-off.

TURF: Use the following rates with sufficient water (normally 50 gallons or more per acre) for thorough coverage. Spray to the point of run-off.

All types of established turf: Apply **EVERGREEN™** on an as-needed basis from 1.5-4 gallons per acre (4.5-12 oz./1000 sq. ft.) Under severe stress conditions or for quick growth, **EVERGREEN™** can be applied up to 7.5 gallons per acre (22.5 oz/1000 sq. ft.).

For Overseeding: Apply after germination, and once a leaf canopy appears. For a light overseeding, apply at the rate of 3 gallons/acre (9 oz./1000 sq. ft.), and for heavy overseeding, apply at the rate of 7 gallons/acre (21 oz./1000 sq. ft.). Apply on a weekly basis until the overseeding is established. Thereafter, apply a maintenance rate of 3 gallons/acre (9 oz./1000 sq. ft.) on an as needed basis.

FOR ORNAMENTALS: Apply a 3% solution of **EVERGREEN™** for trees and shrubs and a 1% solution of **EVERGREEN™** for bedding plants.

*NOTE: In foliar sprays use **PENETRAIDE™**, or another high quality, non-ionic, surfactant, for better foliar coverage.

STORAGE: Store and/or ship in polypropylene, fiberglass or stainless steel containers. Use only stainless steel or PVC fittings. Store in a cool place in original container in a locked storage area inaccessible to children, pets or wildlife.

Container Disposal: Do not reuse empty containers. Rinse thoroughly, then dispose of properly.

Caution: Harmful if swallowed. Avoid contact with eyes, skin, and clothing. Avoid breathing spray mist. Corrosive.

READ LABEL! FOLLOW DIRECTIONS!

WHAT TO DO IN CASE OF CONTACT:

If Swallowed: Give 1-2 glasses of milk or water, Induce vomiting. Immediately call physician.
Eye Contact: Flush eyes with clean water for 15 minutes. Immediately call physician.
Skin Contact: Remove contaminated clothing and wash skin with soap and water. Call a physician if irritation develops or persists.
If Inhaled: Move to fresh air and call a physician if irritation develops or persists.
If there is contact made with the spray solution containing pesticides and/or spray adjuvants, follow the "Statement of Practical Treatment" on the product labeling.

TBT TURF SERVICES, LLC

EVERGREEN™ 14-7-7

Monopotassium Phosphate, Potassium Hydroxide and Urea

A Complete Mix of Primary Elements Specially Designed
for Maximum Uptake and Utilization

Enhances Dark Green Color and Vigorous Growth
TURFGRASS—ORNAMENTALS—BEDDING PLANTS
FAST—EFFECTIVE—NON-BURNING

GENERAL INFORMATION

EVERGREEN™ is a complete fertilizer blended from the highest quality primary nutrients, and is designed for maximum uptake and utilization. **EVERGREEN™** promotes root and shoot growth, green-up of grass and improved turf vigor. It is especially effective as a starter for overseeding, for stimulating growth where needed, and for overcoming transition problems. **EVERGREEN™** has a very low salt index and is virtually chlorine free. **EVERGREEN™** is designed for foliar application so it is very quick acting. **EVERGREEN™** is extremely affective and is non-burning.
