DIRECTIONS FOR USE

GREEN GOLD™, is compatible with TBT TURF SERVICE's **MIGHTY GREEN™ and JUMP START™** and most pesticides and other chemicals. An exception is Sevin 80 sprayable. Always use a jar compatibility test with correct rates of all products before mixing for the first time. When mixing other liquid fertilizers and/or pesticides with **GREEN GOLD™,** the blend sequence should be as follows: water, pesticide, **GREEN GOLD™** and/or other fertilizer. **GREEN GOLD™** regulates the release of nitrogen over a 6 to 8 week period at the full rate. It can be used more frequently at lower rates.

APPLICATION RATES

TURF: Use the following rates with sufficient water (normally 50 gallons or more per acre) for thorough coverage. Spray to the point of run-off.

Summer Feeding on Bermuda:	2 1/2 - 11 gallons/acre (8-32 oz./1000sq. ft.) Repeat every 2 weeks at the lower rate and every 6-8 weeks at the higher rate. For best results, use with TBT TURF SERVICE's **MIGHTY GREEN™**
Winter Feeding on Overseeded Bermuda:	Same as above, except that with extended cool temperatures Bent, Rye, Poa Trivialis, Fescue under 50°, apply TBT TURF SERVICE's **JUMP START™** at 1/4 - 1/2 rate with **GREEN GOLD™**. For best results, use with TBT TURF SERVICE's **MIGHTY-GREEN™**.
Trees and Ornamentals	Apply 2 to 4 oz. per gallon of water in sufficient quantity to ensure best coverage.

WARNING
Causes skin irritation.
Causes serious eye irritation.

Prevention: Wash thoroughly after handling. Wear protective gloves, chemical splash proof goggles and face protection.
Response: If on skin: Wash with plenty of water. Take off contaminated clothing and wash it before reuse. If skin irritation occurs, get medical attention.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.
Storage: Keep container tightly closed.
Disposal: Dispose of contents / containers in accordance with local / regional / national regulations (See Section 13 of SDS). Empty containers may be triple rinsed and offered for recycling.

NOTICE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions or use. Since weather, crop, soil and other conditions may vary, TBT TURF SERVICE **makes no warranty of any kind, express or implied, concerning the use of this product.** The user assumes all risks of use or handling whether or not in accordance with directions or suggestions.

GENERAL INFORMATION

GREEN GOLD™ contains triazone, a liquid controlled release nitrogen, which provides daily nutrition for plant recovery, uniform growth and constant putting pace - without surge growth and 5 o'clock shadow. At full strength, **GREEN GOLD™** regulates the release of nitrogen over a 6 to 8 week period. It can be used more frequently at lower rates. It won't cause foliar damage, so you can apply enough in every application to ensure that turf grasses stay green, strong and healthy. **GREEN GOLD™** is crystal clear, non-separating, and can be stored for over one year.
